PROFESSIONAL SUMMARY

Full-Stack & Robotics Engineer skilled in Next.js, TypeScript, Laravel, Django, and Flutter, with a B.Sc. in Cyber Security that grounds everything I build in a security-first mindset. I'm passionate about building secure, high-performance web and mobile applications with clean architecture and modern UI frameworks. I've developed scalable systems with role-based access control, optimized load times by 45%, and improved app reliability through effective state management. My work also extends into Web3; building decentralized applications and smart contracts with Solidity, Foundry, and Wagmi, and integrating on-chain functionality into full-stack products. Experienced in API integration, DevSecOps, and CI/CD pipelines, I bring a strong focus on delivering efficient, user-centric, and secure digital solutions.

WORK HISTORY

Owodunni Tech May 2026 | Lagos, Nigeria
